

HYLORIS PHARMACEUTICALS

PROJECT MANAGER

We are currently looking for a Project Manager. The successful candidate will be responsible for managing, coordinating, and delivering product development programs from an early-stage development phase until filing to Health Authorities, launch and routine commercial manufacturing.

Job description

In a matrix organization, as Project Manager, you will:

- Work together with project team members and research scientists who would take on all scientific and technical matters in experimental study designs.
- Prepare target product profiles, project development plans and budgets.
- Prepare and keep up-to-date project timelines and costs and provide input for financial planning.
- Organize efficient external and internal communication (periodic calls, ad-hoc calls, check lists, work specifications).
- Co-ordinate external and internal project responsibilities against objectives and within budget.
- Act as an internal or external point of contact with awareness of technical milestones and timelines as well as contractual obligations.
- Assist with the preparation of requests for proposals and project proposals.
- Monitor progress of individual projects, anticipate and manage risks and use or develop appropriate metrics as required.
- Prepare stage-gate reports for e.g. project strategy, progress, issues, risks, updated timelines and costs.

Your professional profile

- Minimum Qualification: MSc or PhD in Pharmacy, Chemistry or equivalent.
- Minimum Experience: 7 years' experience in pharmaceutical product development and project management.
- Languages: English (written and verbal) - French is an asset.
- Experienced Microsoft Project software user.
- Ability to understand commercial contracts.

Your abilities

- Demonstrate strong work ethics, and effective written and verbal communication skills.
 - Show an organizational aptitude to be part of an outstanding team.
 - Be flexible and have a strong team player attitude with the ability to motivate and to inject energy into the project teams.
 - Have strong interpersonal skills and a collaborative and trust enabling working style for building partnerships among key stakeholders.
 - Have the adaptability, flexibility, independence and resourcefulness to both lead a big vision strategy while also willing to roll-up-sleeves and multi-task to thrive in a growing environment.
 - Show respect for individuals and cultural difference across different countries.
 - Demonstrate efficient utilization of time and resources.
 - Be proactive and result-oriented with a focus on business.
 - Can steer external partners.
-

About Our Company

Hyloris is a specialty biopharma company focused on innovating, reinventing, and optimising existing medications to address important healthcare needs and deliver relevant improvements for patients, healthcare professionals and payors. Hyloris has built a broad, patented portfolio of 13 reformulated and repurposed value-added medicines that have the potential to offer significant advantages over available alternatives. Outside of its core strategic focus, the Company also has 3 high barrier generic products in development and registration phase. Two products are currently in initial phases of commercialisation with partners: Sotalol IV for the treatment of atrial fibrillation, and Maxigesic® IV, a non-opioid post-operative pain treatment. The Company's development strategy primarily focuses on the FDA's 505(b)2 regulatory pathway, which is specifically designed for pharmaceuticals for which safety and efficacy of the molecule have already been established. This pathway can reduce the clinical burden required to bring a product to market, and significantly shorten the development timelines and reduce costs and risks. Hyloris is based in Liège, Belgium.
