

HYLORIS PHARMACEUTICALS SA

Clinical Project Manager

We are currently looking for a Clinical Project Manager. The successful candidate will be responsible for the planning and management of clinical projects according to the clinical development plan, protocol, current GCP ICH guidelines, relevant laws and regulations.

Job description

As Clinical Project Manager, you will :

- Contribute to the development of a Target Product Profile and required related clinical development strategy.
- Deliver project development plans and estimated costs.
- Ensure appropriate third-party provider selection, qualification and contracting for the assigned projects. (such as CROs, laboratory, monitors, etc.).
- Ensure that the activities related to the assigned clinical project are coordinated effectively to ensure that the project is delivered in time, within the budget and within agreed project targets, while ensuring that quality standards are met.
- Strong team leadership, actively managing the clinical project team assigned to the project(s).
- Overseeing and monitoring the performance of the clinical vendors and CROs.
- Ensure effective cross-functional teamwork during the start-up, execution and reporting of Clinical Projects. Including both internal and external services.
- Overseeing and monitoring of project resource needs and collaborate with relevant partners to ensure ongoing and adequate resource allocation on the project.
- Maintain and build relationships with Key Opinion Leaders.
- Attend and/or participate in Health or Clinical Research conferences.

Your professional profile

- Minimum Qualification: MSc or PhD in in medical or life sciences (or equivalent required).
- Minimum Experience: 5 years' experience in Clinical Research.
- Previous experience as Clinical Project Manager preferred.
- Excellent knowledge of pharmaceutical product development process and requirements.
- Excellent knowledge of GCP and ICH Guideline.
- Experience with FDA regulations and guidelines on clinical development is an asset.
- Languages: English (written and verbal) - French is an asset.
- Computer proficiency is mandatory.

Your abilities

- Strong interpersonal skills, a collaborative and trust enabling working style, building partnerships among key stakeholders.
 - Organizational aptitude to build, lead and develop an outstanding team.
-

- Adaptability, flexibility, independence, and resourcefulness to both lead a big vision strategy while also willing to roll-up-sleeves and multi-task to thrive in a growing environment.
- To have essential professional attributes include a detailed-oriented analytical thinking, a team-player attitude, respect and understanding for cultural differences in different countries, and efficient utilization of time and resources.

About Our Company

We are a specialty biopharma company identifying and unlocking hidden potential in existing medications for the benefit of patients and the healthcare system. We apply our knowhow and technological innovations to existing pharmaceuticals and have built a broad proprietary pipeline with the potential to offer significant advantages over currently available alternatives. We currently have two, partnered commercial-stage products, Sotalol IV for the treatment of atrial fibrillation, and Maxigesic® IV, a non-opioid analgesic for the treatment of pain. Our development strategy primarily focuses on the FDA's 505(b)2 regulatory pathway, which is specifically designed for pharmaceuticals for which safety and efficacy of the molecule has already been established. This pathway can reduce the clinical burden required to bring a product to market, and significantly shorten the development timelines and reduce costs and risks. Hyloris is based in Liège, Belgium. Our values

Our talented staff work in accordance with our company values:

- We are proud of our entrepreneurial culture and foster open communication, mutual respect, professionalism and efficient decision-making and we believe that our multicultural organisation is one of our most important competitive advantages.
- We believe that timely and well considered decisions as a response to emerging opportunities and ideas is the key to our success.
- We believe that the success of the company lies in the competence, dedication, and motivation of each of our employees.
- We believe that freedom returns flexibility and empowerment returns commitment.
